

The Influenza vaccine is recommended for all pregnant and breastfeeding women, as well as any children or adults who will be in close contact with a pregnant woman or newborn baby. We will be offering the Flu Vaccine, free of charge, at Riley Park Maternity Clinic this fall. It is expected to be available mid-October. If you would like to receive the Flu Vaccine during your next visit please read the following information prior to coming in:

- [Influenza Vaccine Information Sheet](#)
- [Influenza Immunization for Pregnant Women, Breastfeeding Women and Families with Newborns](#)

For more information about the Flu Vaccine, please visit:

- [Influenza Immunization Product Information - Alberta Health](#)
- [Comparison Chart: Influenza vs. Common Cold vs. Stomach "flu"](#)
- [Common Questions About Influenza Immunization](#)
- [Frequently Asked Questions About Influenza Immunization](#)

If your partner/primary support person would like to receive the Flu Vaccine during your visit, please call or email the office with their full name, date of birth and their Alberta Health Care number prior to the appointment so we can prepare a chart for them. Vaccinations for all other family members will need to be done through a pharmacy or AHS Vaccination Clinic.

Thank you and we look forward to seeing you soon.
